In March 2023 I moved with my artist husband and our rescue cat Perry to a house a stone's throw from the Forgan Arts Centre. Since then we have become regulars at the volunteer gardening sessions (Rake-and-Bake), and I am looking forward to joining a pottery class in the autumn.

Professionally I have been a researcher of diverse topics around interactions between humans, animals, plants and environments. I have worked in fundraising and project planning in arts, social science and natural science contexts.

I have always had a deep fascination for artistic creations – including literature, film, theatre, music and visual arts – and their transformative power. I look forward to working with the Forgan team towards a shared vision of supporting creative opportunities.

Judith Winter (co-Chair)

Ordinary Member standing for re-election

I live locally and was Head of Arts at DCA until I left a decade ago to work on freelance projects. I now am a research fellow and lecturer at Gray's School of Art, RGU.

Having worked in the arts since the 1990s first as deputy director for Cleveland Arts and then as a curator for MIMA, Middlesbrough (an arts venue that brought together fine art, drawing, craft and education, I am particularly interested in the ecology of the arts - the way creativity grows in places.

My motivation - it would just be lovely to continue to lend my support to my local arts centre and artists, makers and anyone working on schools and grassroots projects and to act as a sounding board and critical friend.
